INTRODUCTION

The 1800 Federal Population census schedule gives, for each family, the name of its head plus the number of family members (including the family head) in each of the following 12 categories:

A. Free white males under 10 years of age.
B. Free white males of 10 years and under 16 years of age.
C. Free white males of 16 years and under 26 years of age.
D. Free white males of 26 years and under 45 years of age.
E. Free white males of 45 years and older.

F. Free white females under 10 years of age.
G. Free white females of 10 years and under 16 years of age.
H. Free white females of 16 years and under 26 years of age.
J. Free white females of 26 years and under 45 years of age.
K. Free white females of 45 years and older.

L. All other free persons except Indians not taxed.
N. Slaves.

In the census compilation following, the capital letters across the top of each page correspond to the categories described above. Thus, each line in the compilation contains all available data on one family. Take the following example for illustration:

Smith, William	1	0	0	1	0	0	1	0	1	0

From this, we see that the family head is named William Smith. The family contains one free white male under 10 years of age, one free white male between 26 and 45 years, one free white female between 10 and 16 years and one free white female between 26 and 45 years.

Data for this compilation were taken from a positive microfilm copy of the original census schedule, obtained from the National Archives in Washington, D. C. . As census schedules of this period go, this one appears to have been carefully written and is generally quite readable. The microfilm copy is of good quality. Inevitably there are a few names and numbers that cannot be unambiguously interpreted. In each such instance the most probable interpretation has been given followed by question mark in parenthesis.

With one exception, the spelling of names and places used by the census enumerator has been adhered to. This exception consists of consistently using "Jr." as the abbreviation for "Junior", although it appears at various places in the schedule as "Jr.", "Junior", "Jun.", and "Junr.".

With very few exceptions, families within a town appear in the same order in this compilation as they do in the original census schedules. For a few towns, it was not possible to determine positively the ordering of pages in the census schedule. However, ordering for these towns is unchanged within each page. Oneida County towns have been arranged alphabetically for this compilation, although they did not appear thus in the original schedule.

In the index, names of family heads are arranged alphabetically by surname. The number following each name gives the page in the compilation on which complete data will be found.

In 1800, Oneida County was considerably larger than the present Oneida County. Without going into details of county borders in 1800, one can get a rough idea of the county's extent by considering that the county then contained the present Oneida County, plus Lewis County, Jefferson County, St. Lawrence County and part of Oswego County. The towns of Augusta, Bridgewater, Camden, Deerfield, Floyd, Paris, Remsen, Rome, Steuben, Trenton, Western, Westmoreland and White's Town are within what is now Oneida County. Mexico and Redfield are within the present Oswego County. Canton, Lisburn (now spelled Lisbon), Louisville, Madrid, Masena (now spelled Massena), Oswegatche (now spelled Oswegatchie) and Stockholm are within the present St. Lawrence County. Champion and Watertown are within the present Jefferson County. Leyden, Lowville and Turin are within the present Lewis County.

Oneida County, N. Y. State -- 1800 Federal Census Schedule

SUMMARY ABSTRACT
